

New flexmls mobile is taking over <http://m.flexmls.com>

Beginning January 16, 2012, <http://m.flexmls.com> will direct Subscribers to the new flexmls mobile site. For those who prefer, there will be a link on the log in page to the classic mobile version (see MEMBER LOG IN image).

You may also enter <http://wireless.flexmls.com> directly into the Web browser for access to the classic mobile log in page.

Current features such as *Change Price*, *Extend or Expire*, *New Photo* and *Listing Cart* options will remain available on the new site along with additional features and an updated look.

Current features such as ***Change Price***, ***Extend or Expire***, ***New Photo*** and ***Listing Cart*** options will remain available on the new site along with additional features and an updated look.

One of the new features for touch-screen devices will be the ability to navigate through photos by swiping your finger across the screen (see green arrows in house image).

Please note....the New Photo option on flexmls mobile will not be available on the iPhone, iPad or iPod due to device limitations.
