

## Additions to *Accessibility Features* in flexmls

On July 12, 2011, ARMLS® added new selections to *Accessibility Features* for Residential, Residential Rental and Seasonal Furnished Rental property types in flexmls. Due to system constraints, the names of the new items have been abbreviated.

Help text is available next to each option. When entering a listing, click the  next to the feature to reveal its complete name.

The addition of these selections does not directly affect your listings or the functionality of saved searches. However, please take a moment to review the list to determine if any apply to an existing listing or if your search would be improved by including these items.
