

Introduction of the *Products* Tab

On December 5, 2011, ARMLS® changed the location of several items within the flexmls Menu. Specifically, the links to *RPR*, *Floor Plans*, and *RL Brown* were moved from the *Search* tab to a newly added *Products* tab.

The *Products* tab will contain links to applications provided by third-party vendors with whom ARMLS has partnered. Links found in the *Products* tab will direct users from flexmls to those other systems.

Keep an eye on the *Products* tab in the future as new links will continue to be added.
