

## Less Zooming with the Default Map

Do you work a certain area of the Valley? Save time with less zooming by starting Map Searches in your neck of the woods.

1. Go to *Preferences* and *Default Map*.

2. Select the rectangle in your tool tray.

3. Draw a rectangle around the area you wish to have as the Default area.
4. Click *Save* in the upper-right corner.
5. If you ever need to change it back, click *Reset* in the upper-right corner and it will restore your map back to the original.

Now Map Searches are quicker. You won't have to redraw or zoom so far in to see your listings and streets.
